# Zones of Work

Leap to the next level

# 4 Zones of Work based on The Big Leap by Gay Hendricks

## Zone of incompetence:

- Engaging in tasks or work that one doesn't understand or have skills
- Lack of understanding or skills makes the one inefficient and uses too much time and effort to accomplish

## Zone of competence:

- Working efficiently, but others can do it more efficiently or effectively
- It doesn't pay well
- May feel drained or resentful for doing the work

## Zone of excellence:

- Very skilled or trained at the work
- Spent time, money, and energy learning skills
- People praise, support, and pay for your excellent work
- Start to lose interest or satisfaction in the work

## Zone of genius:

- Natural, inherent ability
- Innate skills more so than learned
- Light up when doing the work, feeds the soul, gives you joy
- Can do it effortlessly with results

One must take the leap from their zone of excellence to their zone of genius because there is little competition for their work.

# Thank You!

I hope this is helpful in getting your mind right to Make Money! When you join Club Awakened you will get support, more resources, and group coaching.
